BUREAU OF ANIMAL INDUSTRY.

JOHN R. MOHLER, CHIEF OF BUREAU.

## SERVICE AND REGULATORY ANNOUNCEMENTS.

MAY, 1918.

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each, or 50 cents a year. A supply will be sent to each official in charge of a station or branch of the bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

### CHANGE IN DIRECTORY.

#### Station Added.

St. Albans, Vt., tuberculosis eradication, Dr. A. J. De Fosset, care Commissioner of Agriculture.

### NOTICES REGARDING MEAT INSPECTION.

#### SPECIAL CERTIFICATE FOR STAG BELLIES AND OTHER COARSE HOG BELLIES EXPORTED.

Referring to bureau circular letter 733 dated February 12, 1918, and the announcement by the War Trade Board which accompanied that letter relative to the certification and exportation of stag bellies and other coarse hog bellies, the War Trade Board has announced that the exportation of these products is now permitted to West African as well as to West Indian and Central American countries. Accordingly, inspectors in charge of meat inspection will make the necessary examination and issue the certificate specified in circular letter 733 for each consignment of stag bellies or other coarse hog bellies destined to West African as well as to West Indian and Central American countries.

## M. I. FORM 141 DISCONTINUED.

Beginning July 1, 1918, the use of M. I. Form 141 will be discontinued. The quantity of pork prepared to be eaten without cooking will be reported on M. I. Forms 124A and 110 as heretofore.

### ORDERING SUPPLIES FOR STATIONS.

Commencing July 1, in order that the bureau field stations may have on hand at all times a sufficient quantity of forms to insure against having their stocks entirely depleted, as the stock of any form becomes low a request should be made on Form P-1 for a sufficient supply which, with stock on hand, will cover all needs for three months. All requests must show the number on hand and the number actually needed for three months' supply, and should be made in the following form:

80 pads    Form Xy 72    On hand 20    3 months' supply 100

All other supplies should be ordered monthly as heretofore, the only change being that only the Meat Inspection and the Field Inspection stations should forward requests on the last day of the month; all other stations should send in their requests on the 15th of the month.

Considerable difficulty has been encountered in correctly addressing supplies sent out because of the failure of inspectors, especially new men, to put their full addresses on all requests. When forwarding a request for supplies the name and the street address of the person to whom supplies are to be sent must be entered thereon.

---

### DATA TO BE FURNISHED IN RECOMMENDATIONS FOR APPOINTMENT.

Officers in charge are informed that in each case of recommendation for appointment to a position in this bureau it is required that the date of birth (day of month and year) of the person so recommended be given.

In recommending an appointment it is also very important that the name of the applicant be stated correctly in form and spelling, making sure that the name as recommended is in the same form that the applicant will use in signing his oath, personal statement sheet, etc.

### PUBLICATIONS IN MAY.

[The bureau keeps no mailing list for sending publications to individual employees, but publications are sent in bulk to officers in charge for distribution to members of their forces. The number of copies sent varies with the subject or nature of the publication and the number and class of employees. Officers in charge will use their judgment and distribute publications to best advantage. So far as possible additional copies will be furnished on request.]
